

We are facing some missing reference to DLLs after the workflow reinstallation in lower env. We have tried for Return Mail v2, SMB and govagg workflow and we faced same issue. Please find the error details below:

Return mail:

 **\Returned Mail\To be processed\6928784-0^410000^14568692001^20190327**

Workflow | Details | Entries | Activities | Messages | Condition | Tokens

The errors, warnings, and information below have occurred:

	Time	Activity	Message
	7/22/2019 7:44:28 AM	Search Repository for Original Document	No entry was found.
	7/22/2019 7:44:30 AM	Get Account ID and Type	Could not load file or assembly 'SiebelActivityServiceRequestInterface, Version=2.3.2.1, Culture=neutral, PublicKeyToken=null' or one of its dependencies. The system cannot find the file specified.

GovAggAddressUpdate:

 **GovAggAddressUpdate**

Workflow | Details | Entries | Activities | Messages | Condition | Tokens

The errors, warnings, and information below have occurred:

	Time	Activity	Message
	7/25/2019 9:42:27 AM	File Collection and DB Write	Could not load file or assembly 'GovAgg, Version=2.0.3.86, Culture=neutral, PublicKeyToken=null' or one of its dependencies. The system cannot find the file specified.

SMB Contract Integrlys to FEP:

 **SMB Contract Integrlys to FEP**

Workflow | Details | Entries | Activities | Messages | Condition | Tokens

The errors, warnings, and information below have occurred:

	Time	Activity	Message
	7/25/2019 9:04:45 AM	Export Records to CSV	Exception has been thrown by the target of an invocation.
	7/25/2019 9:04:46 AM	Export Records to CSV	Exception has been thrown by the target of an invocation.
	7/25/2019 9:04:46 AM	Export Records to CSV	Exception has been thrown by the target of an invocation.

These all are failing in workflow script.
