

The text of the highlighted fields is longer than the display area on the Field Rule. Also, since they are in a collection the first part of the field name is the same making impossible to know which rule I need to edit.

The image shows a screenshot of a field rule configuration interface. The top section displays a rule configuration with a dropdown menu set to "Show", a condition "When any" of the following is true, and a field "Parent/Guardian Income Information: (Parent...)" with a value of "No". Below this, a dropdown menu is open, showing a long list of options. The first option is "Are you currently unemployed? (PG2_Are_you...)". The rest of the options are truncated, starting with "Parent/Guardian Income Information: (Parent_Guardian_Income_1)" followed by various sub-conditions like "Cal Fresh Case Number:", "Cash Aid Assistance:", "Child Support:", "Current Employer:", "Do you have a Cal Fresh Case Number?", "Employer Phone:", "Financial Aid: State or Federal Grants/Scholarships:", "Foster Care or Adoption Assistance:", "How many time a month are you paid?", and "Is child support paid or received?".

Field Rule Configuration:

- Show
- When any of the following is true
- Parent/Guardian Income Information: (Parent...)
- is No

Field Rule List:

- Are you currently unemployed? (PG2_Are_you...)
