paths are eligible for bundled pricing

Learning paths
include courses based on features and topics associated to your role

Receive role-based certification
for our current product version by completing all required courses within the path

Gold Certification

Current certification courses are based on Laserfiche 10

Learn how to capture, process and store content with Laserfiche. This program provides eight e-learning courses and exams to certify customers and solution providers on installing, configuring and managing Laserfiche solutions.
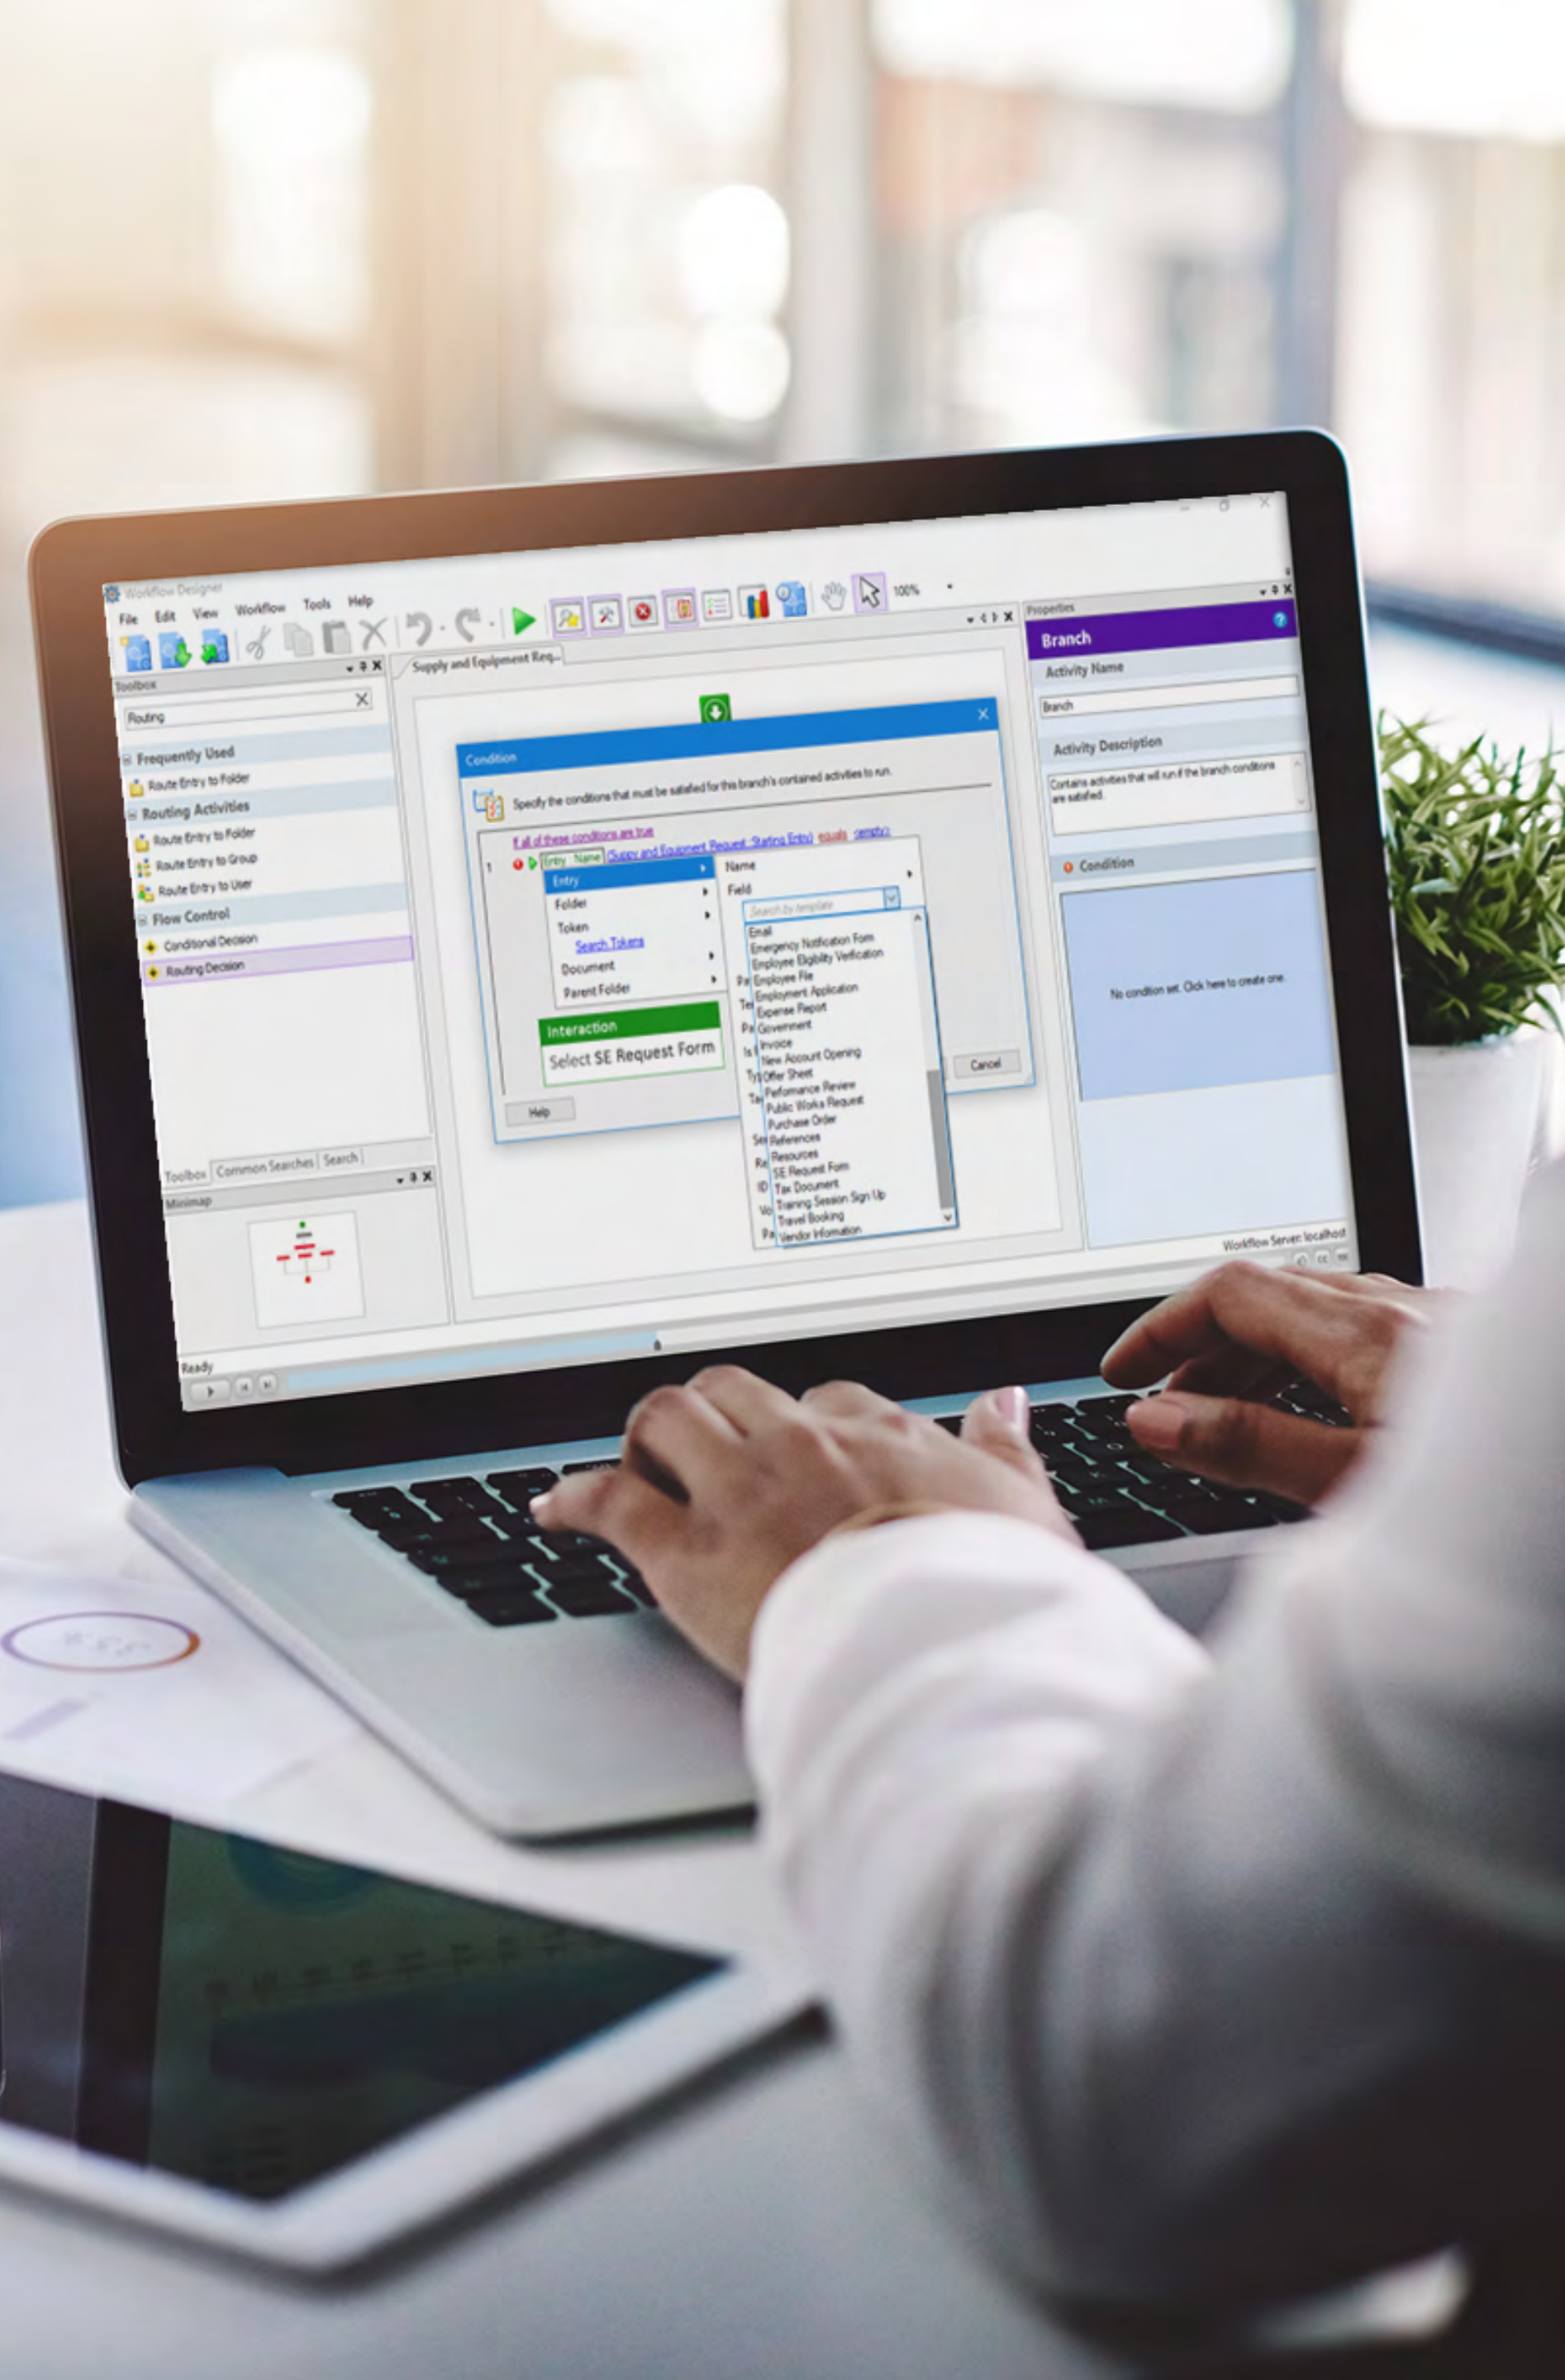

Recommended for:

Users who need to become familiar with multiple Laserfiche applications

In-house IT and support staff, support personnel, or solution providers who need diverse Laserfiche knowledge

Enroll Now

Platinum Certification

Current certification courses are based on Laserfiche 10

Become the ultimate power-user as you configure and troubleshoot robust Laserfiche systems. This program builds on the Gold Certification by providing five additional e-learning courses and exams that focus on advanced Laserfiche security, workflow, records management and more.

Recommended for:

Advanced users who want to improve their Laserfiche knowledge

Laserfiche administrators and solution providers who provide large-scale solutions
